Things been always black and white

A E  
Just like you can't judge A book by the cover  
F#m  
We all got to be careful  
D  
How we treat one another

**CHORUS :**

A F#m  
Skin Deep Skin deep  
E D  
Underneath we're all the same  
A F#m  
Skin Deep Skin deep  
E D A  
Underneath we're all the same We're all the same

**SOLO Guitare : A E F#m D.... ( 2 FOIS)**

A E  
A man in Louisiana He never called me by my name  
F#m  
He said "boy do this and boy do that"  
D  
But I never once complained

A E  
I know he had a good heart But he just didn't understand  
F#m  
That I needed to be treated  
D  
Just like any other man

**CHORUS**

A E  
I sat my child down When he was old enough to know  
F#m  
I said out there in this big wide world  
D  
You're gonna meet all kind of folk

A E  
I said son It all comes down When he was old enough to know  
F#m  
That you treat everybody just the way  
D  
You want them to treat you

**CHORUS ( 2 Fois )...**
